Entrance Arch with gated community

Entrance Arch with Gated Community: It's containing strictly controlled entrances for pedestrians, bicycles, and automobiles also safeguard from surroundings.

BlackTop Road

Black Top road: A well-maintained road infrastructure that is suitable for driving and commuting, providing smooth connectivity within the project.

Street Lights

Street lights: Sufficient and strategically placed street lights to ensure adequate illumination throughout the real estate project, enhancing safety and security for residents and visitors.

Avenue Trees

Avenue trees give a huge boost to the quality of the outdoor space and they are vital in counterbalancing the increasingly tall buildings.

Individual Water line & Underground Drainage system

Underground drainage: A modern and efficient underground drainage system that ensures disposal of wastewater and promotes a clean and hygienic living environment for residents.

Fully compound wall

Fully Compound Wall: It's acts as the first line of defence against intruders. It helps to demarcate the boundaries of the property and protects the site and home from animals, thieves, and others.
